

## Product Compliance Status

Type Plating Designation

A4 No finish suffix

### Reach<sup>1</sup> Compliance

No SVHC Content

---

<sup>1%</sup>Currently the European Chemicals Agency identifies 223 SVHC's (Substance of Very High Concern) as potentially harmful. At the present time PennEngineering is still doing due diligence regarding the two SVHCs added in January of 2022 for any parts with a plastic component which includes the following types:

- Types PL, PLC and CFN locknuts which contain a nylon locking element
- Types PFC2, PFS2, PFK, PFC2P and PFC4 panel fastener assemblies which contain a nylon retaining ring
- Type PF11PM with a color code letter suffix and type PSHP panel screw which have over-molded plastic caps.

<sup>1</sup>All other catalog parts do not contain any of the current 223 SVHCs in excess of 0.1%% of article weight and are compliant to REACH Annex (XIV) and REACH Annex (XVII) except as noted above.

---

This statement of REACH compliance pertains only to PennEngineering® brand products. For more information on these products, go to: [www.pemnet.com](http://www.pemnet.com).

Sincerely,  
PennEngineering®
