Penn Engineering (cc 56C13)
Attn: Michael Bumgarner
2400 Lowery Street
Winston-Salem, NC 27101

Dear Mr. Bumgarner,

DLA Troop Support Industrial Hardware has approved Penn Engineering (cc 56C13) renewal application as a qualified manufacture of Class 2 and 3 Threaded Fasteners (CL2/3TF) under the Qualified Suppliers List (QSL) Program for another 3 years effective the date of this letter. Keep in mind that audits may be conducted at any time, and qualification is always contingent upon your continual compliance with the Criteria and Provisions of the QSL Program.

As a reminder, your company's status as a QSL approved source will expire on February 28, 2021. A renewal application must be submitted 120 days before the expiration date in order for your application to be processed in a timely manner. If your status has expired and no renewal application has been submitted, your company will be removed from the QSL Program.

Also, please ensure that your System for Award Management (SAM) registration is up to date as your standing in the QSL program will be affected if your registration is expired. Government records show that Penn Engineering registration in SAM will expire on April 9, 2018.

Any questions regarding this matter can be addressed to Ed Rojo at 215 737 7455 or eduardo.rojo@dla.mil. You can also browse the DLA QSL website at <http://www.dla.mil/TroopSupport/IndustrialHardware/EngineeringandTechnicalservices/QualifiedSuppliersList.aspx>. Thank you for your participation.

Regards,
