Information Technology Equipment Including Electrical Business Equipment
Certified for Canada - Component

The devices covered under this category are incomplete in certain constructional features or restricted in performance capabilities and are intended for use as components of complete equipment submitted for investigation rather than for direct separate installation in the field. THE FINAL ACCEPTANCE OF THE COMPONENT IS DEPENDENT UPON ITS INSTALLATION AND USE IN COMPLETE EQUIPMENT SUBMITTED TO UNDERWRITERS LABORATORIES INC.

GENERAL

This category covers components intended for use with information technology equipment.

CONDITIONS OF ACCEPTABILITY

Consideration is to be given to the Conditions of Acceptability specified in the individual Recognitions when these components are employed in the end-use equipment.

REQUIREMENTS

The basic standards currently used to investigate products in this category are CAN/CSA C22.2 No. 60950 or CAN/CSA C22.2 No. 60950-1, "Safety of Information Technology Equipment," or CAN/CSA C22.2 No. 60950-21, "Safety of Information Technology Equipment - Remote Power Feeding," as appropriate.

UL MARKING

Components Recognized under UL’s Component Recognition Program are identified by markings consisting of the Recognized company’s identification and catalog, model, or other product designation. In addition, components produced under the UL Component Recognition Program will also bear the Recognized Component Mark for Canada.

The Listing or Classification Mark of Underwriters Laboratories Inc. is not authorized for use on, or in connection with, Recognized Components. Only those components that actually bear the "Marking" should be considered as being covered under the Component Recognition Program.
