

Ozone Depleting Substances (ODS) General Statment

November 2019

PennEngineering is a worldwide supplier and manufacturer of Specialty Fasteners, understands, and supports the requirements of the Montreal Protocol, and U.S. Clean Air Act, restricting the use of Chemicals that cause Ozone Depletion.

PennEngineering is not a supplier of any Ozone depleting chemicals and we do not knowingly use any Ozone Depleting Substances in our manufacturing processes, or purchase any reclaimed, or recycled ODS material.

PennEngineering requires its supply chain to be responsible to manage their suppliers/manufacturers to comply with the Montreal Protocol, U.S. Clean Air Act. To the knowledge of PennEngineering none of the products currently shipping contain any ODS chemicals.

PennEngineering will continue to monitor our suppliers and the Regulatory Bodies (Montreal Protocol, US Clean Air Act, etc.) requirements for any changes to the ODS requirements to maintain compliance.

Rocky Pinheiro, PhD.
